

FINAL POLISHING SYSTEM - 1 -

SAITAMA SEIKI CO., LTD.
2942 Mishiri, Kumagaya,
Saitama, Japan

<Work 1> Removal of seediness

[Specifications]

Model	Speed	Weight	Pad size	Paper size
U-51	8500rpm	480g	30mm	32mm

STANDARD ACCESSORIES:

30mm Velcro Pad Base & 30mm Glue-on Disc

[Applications]

- *Removal of seeding, runs, dust chips, etc. on the painted surface of automobile or motorcycle body and other components.
- *Removal of dust chips for baking-painted electric appliances.

[Features]

- *Removal can be made at the minimum area.
- *Double action prevents deep grinding, that saves the polishing time for finishing work.

MODEL U-51

<Work 2> Polishing

[Specifications]

Model	Speed	Weight	Pad size	Buffer size
U-83HP	3500rpm	750g	72mm	80mm

STANDARD ACCESSORIES:

72mm Velcro Pad, 80mm Thick Buffer, & 80mm Urethane Buffer (fine)

[Applications]

- *For finishing work after removal of seediness.
- *Also ideal for polishing the restricted area, small components, and plastic parts.

[Features]

- *Polishing can be made at the minimum area, that shortens operation time.
- *High-torque motor keeps constant speed, that enables smooth polishing even when high pressure is loaded on the pad.

MODEL U-83HP

[Optional accessory]

80mm Buffering Disc

<Work 3> Final polishing

[Specifications]

Model	Speed	Weight	Pad size	Buffer size
U-52	10000rpm	730g	45/72mm	50/80mm

STANDARD ACCESSORIES:

72mm Velcro Pad, 45mm Velcro Pad & 50mm Buffering Disc

[Applications]

- *For cleaning blushed or chalked surface after polishing with U-83HP at small area.

[Features]

- *Not only final polishing with buffer, but sanding with abrasive paper.
- *Choose 72mm or 45mm pad for the working area.

MODEL U-52

[Optional accessories]

80mm Thick Buffer

80mm Urethane Buffer
